

Education Sector Track Record

In the Education Sector Delta Planning has a wealth of experience obtained through working on numerous projects for higher and further education institutions as well as some schools. Project experience includes:

University of Wolverhampton – Town planning advisor on various capital projects across the University's estate. Projects include campus infrastructure improvements on the Walsall Campus, a new 6,000 sq.m laboratory building and 7,000 sq.m business school on the City Centre Campus and the new 10,000 sq.m School of Architecture and the Built Environment on the site of the Former Springfield Brewery site in Wolverhampton.

Birmingham City University – Secured planning permission for a new 10,000 sq.m School of Education and Life Sciences Building at the University's City South Campus in Edgbaston. Currently working on applications to secure 100,000 sq.m expansion of City Centre Campus at Eastside Locks in Birmingham.

University of Buckingham – Retained town planning advisor on various capital projects across the University. Our work has included securing planning approval for a major expansion of the University onto a former industrial site next to the main campus, together with other new teaching and student accommodation buildings across the main campus. Delta Planning is also advising the University on issues relating to residential development on non-operational land.

Newman University – Secured planning permission for 300 new student rooms and additional teaching accommodation at the University's Campus at Bartley Green in Birmingham.

University of Birmingham – Delta Planning supported the University's architects in securing planning permission for a new Free School and 6th Form on its Selly Oak Campus.

Dudley College – Retained town planning advisor to the College on its major programme of redevelopment of the College estate across Dudley. This has included securing various planning approvals for new teaching and support facilities totalling over 25,000 sq.m. The College project has helped Dudley Council win awards for Town Centre Regeneration.

Solihull College – Secured planning permission for 7,500 sq.m of additional teaching accommodation at the College's Woodlands Campus, and main Blossomfield Campus.

Burton & South Derbyshire College – Advisor to the College in respect of planning issues relating to the sale of surplus former playing fields at Rolleston-on-Dove.

Bromsgrove School – Retained advisor to the School in respect of securing planning approvals for various campus improvements.
